SUBMISSIONS GUIDELINES

Terminus Projects is an independent organisation that initiates site-specific projects aimed at revitalising artistic and public engagement with the dissemination of place and site. Project proposals submitted must take into consideration any heritage, indigenous, environmental and political concerns of the nominated location. We will not develop works that cause undue or greater community offense, that we deem to be racist, sexist, homophobic or that vilify any individual or group. Terminus Projects will not develop any projects that are seen as dangerous or hazardous, and all successful applications will need to conform to stipulated public liability criteria, and health and safety clauses. Submitted applications should demonstrate a thorough research process, with appropriate documentation of the physical and technical implementation of the work, as well as required site approval if possible.

In order to make a submission for Comfort Zones, you must be a member of Terminus Projects. Membership is tax deductible, and a form can be downloaded from our website, <http://www.terminusprojects.org/support.htm> or by calling our office on 9280 3408.

PRIVACY ACT

The information you provide including all personal details will not be viewed by any individuals other than Terminus Projects representatives and members of the official selection committee.
